

# Piece of paradise for sale

Apartments, villas on offer with Lake Weyba, hinterland, national park views

ONE of the Coast's most secluded pockets of paradise is up for sale.

Noosa's Parkridge has been described as the last major development in the area, and buyers will have to get in quick.

Parkridge hit the market on Wednesday with one-, two- and three-bedroom apartments and villas on offer.

The property is being

developed by Peregian Beach-based Altum Property Group and Thakral Capital and Development director Alex Rigby said they were creating something special.

"My fellow director Rob McCready and I have lived around Noosa since we were children so we know the site really well and have worked with our planners and architects, Blackburne Jackson Design and Sparks

Architects, to ensure Parkridge is in keeping with the local environment," Mr Rigby said.

"We firmly believe that Parkridge is Noosa's hidden treasure."

The development will be on a five-hectare parcel of land on Resort Rd, adjacent to the Noosa Springs Golf and Spa, and will provide views of Lake Weyba as well as Noosa National Park.
